

instructions for human and chest of drawers

to be performed with your own chest of drawers

1. open drawer. inspect the objects inside.

2. breathe into your drawer. feel your breath move past the objects.

3. close drawer and listen for signs of life.

4. open drawer again.

5. continue breathing into drawer until the objects come back to life.

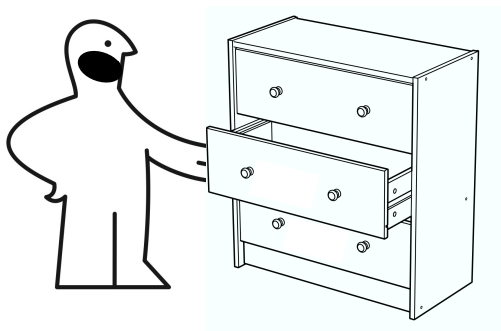

6. if the objects do not come back to life, scream on the objects.

7. feel your breath move past them more erratically.

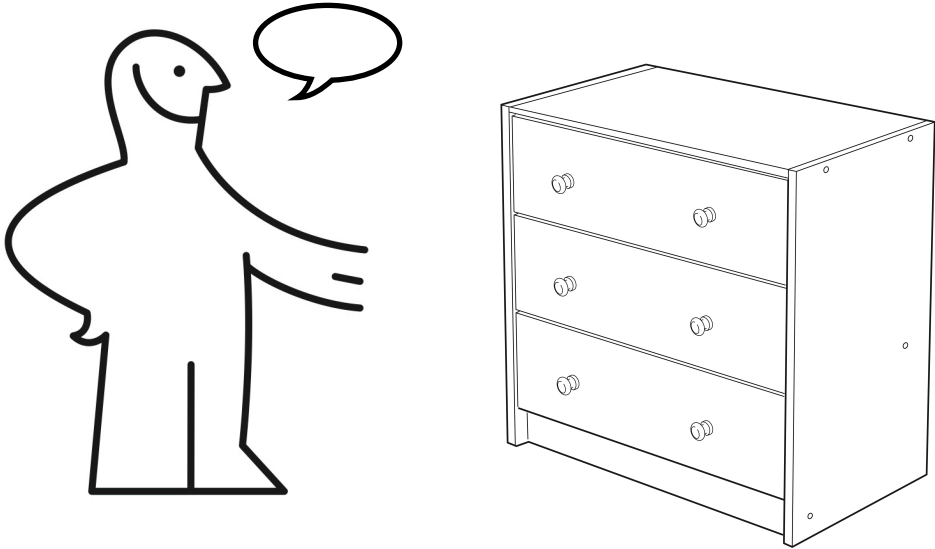

8. continue screaming until the chest of drawers is full of your breath.

9. close drawer. listen to the objects moving inside.

10. thank your chest of drawers for holding these objects.
